

Play One

General: Play One allows you to create endless design possibilities by allowing you to mix and match colours, shapes and optical effects to achieve your fully customized decorative design. Its reduced thickness at 4.8mm, lightweight design, ease of transport and installation, durability and quality, make Play One the perfect material for use in renovations where you want to tile over existing surfaces or for new projects.

Applications: Commercial & residential in and out doors, including foyers, shopping centres, boutiques, courtyards, living areas, patios, bathrooms & pool surrounds. Also wall features inside & out, building facades and water features.
