

Exence

General: Exence features the natural look of Scandinavian Pine, faithful to the colours and shades of the original material. The saw cut look brings out the earthiness and aged appearance of wood marked by the passage of the saw blade.

The Exence collection creates a natural, welcoming and refined atmosphere for interior and exterior designs with a metropolitan inspiration, including various decor proposals.

Applications: All commercial & residential applications for both floor and wall, inside & out, including 20mm pavers that do not require to be laid on a slab. Create various edge detailing and laminations for steps, pool surrounds/ coping, as well as custom designs.
