

Kerlite 5Plus - Forest

General: Forest is the new wood-effect made in Kerlite. Thanks to the 5.5 mm thickness (Kerlite 5Plus), the surface reveals details that are particularly realistic, such as the differences in roughness and texture that are typical of aged and hand-planed wood. Edge grinding guarantees perfectly wedged slabs that can be installed in the most accurate manner possible, to achieve a striking final appearance. The four types of wood selected for this rustic and natural series are timeless, adding simplicity to any design and blend perfectly with contemporary settings.

Applications: Commercial & residential indoor floors, including boats, buildings, foyers, boutiques, galleries, living areas, kitchens and bathrooms, plus all wall applications, splashbacks, bench tops, lift cars and external walls (inclusive of wall cladding).

Origin:	Italy			
Colours:	Acero	(Maple)		
	Rovere	(Oak)		
	Noce	(Walnut)		
Sizes:	1000 x 3000	200 x 1200	200 x 1800	330 x 3000
Thickness:	5.5 mm			
Finishes:	Timber grain surface feel			
Type:	Full-bodied vitrified porcelain with rectified edges			
Appearance:	Natural wood grain with textured surface feel			
Production:	Pure phosphate & clay with zirconium, Kerlite Plus fibre glass backed.			
Technical:	Microban Antibacterial Technology Water Absorption less than 0.01% Frost Resistant & Scratch Resistant Stain Resistant (Class 5) & Graffiti Proof Grade (PEI) 5 – All Residential, All Commercial Fire Retardant – Kerlite Plus “Class 1”			
Slip Resistance:	R10 (DIN 51130)			
Guarantee:	20 Years – for residential & commercial applications
