

SAO LUIS

General: Inspired by the Bazilian city of tiles - San Luis de Maranhao - the Sao Luis collection presents bespoke designs of an important Portuguese influence with colours from the ancient Brazilian Caribbean. This type of designs can still be found nowadays in the facades of the historic center of this city built during the eighteenth and nineteenth centuries. This 600x600 porcelain tile collection is scored to a 100x200 size to recreate the original smaller tiles. Sao Luis is ideal for any residential space, indoor and outdoor, due to a new technique that offers higher slip resistance with a smoother finish that is also very convenient for public spaces.

Applications: Suitable for all interiors, retail fit outs, private homes, public spaces, commercial spaces and hospitality projects.
