

# Traveller

**General:** Inspired by the movement of stones, Traveller is an exclusive, modern series with a high level of added value. It evokes the design of stone like quartzite, bluestone and slate, all of them elegantly unified in two shades, Gris and Marengo being cold and the warmer tones of Beige.

Thanks to the random combination of its pieces, Traveller designs and defines spaces with great scenic effect, characterised by multi-directionality and dynamic movement.

**Applications:** Commercial & residential in & out doors, including foyers, boutiques, galleries, living areas, balconies, patios, kitchens, bathrooms, walls and step treads (with lamination and various edge detail finishes being achieved)
