

TUSCANY

General: Tuscany, terracotta floor tiles that fit into the most consolidated Italian tradition, was inspired by the recovery of an ancient flooring of a Florentine residence of the 1400's. Adapting perfectly to both a classic and contemporary style, thanks to the traditional "Cotto" structure combined with modern and trendy colours, the tiles manage to interpret the taste of an ever-wider audience. Ideal also for those who want to recreate an exquisitely country-like atmosphere for their own commercial spaces, without obviously giving up the practicality and comfort of porcelain stoneware.

Applications: All commercial & residential floors and walls including internal and external applications such as living areas, bathrooms, kitchens, shopping centres and landscape projects.
