

LES BOIS DECOR

General: Reinventing the collective idea of wood-effect stoneware, with a project designed to express the value of the material through attention to detail, in which each grain pattern, each gnarl and each irregular feature becomes an expression of tactile elegance, in 5 intense shades, with a particular accent on dark moody colours.

Applications: Commercial & Residential - Indoor and Outdoor, including floors and walls, for hospitality, retail, office buildings, age & health care, plus all living, bathroom and facades. Landscape applications with step treads and pool coping being achieved through detailed lamination.

Colours:	Slavonia Cobolo	Sarawa	Bocote	Mogano
