

Cluny

General: Cluny captures all the natural charm of a historically beautiful stone in 14mm & 20mm porcelain stoneware. Available in 5 colours, these extra large tiles are always perfectly flat, stain resistant and antibacterial, thanks to integrated Microban technology. Cluny is also available with three different surface finishes: Adouci, which is soft and delicately opalescent; Sablé, slightly rough to touch, non-reflecting and with a more rustic appeal; Layé, with its scratched texture, ideal for exterior floors where slip resistance is an essential requirement.

Applications: Commercial & residential in & out doors, including foyers, boutiques, galleries, living areas, balconies, patios, kitchens, bathrooms, walls and step treads (with lamination and various edge detail finishes being achieved)
