

General: The Cadore series is a natural representation of wood planks commonly found in the stunning Dolomites region of North Eastern Italy. The flowing variation, graining and natural texture make this porcelain timber series hard to look past. Available in 14mm & 20mm thicknesses, this series offers a solution for every environment where a low maintenance option is required.

Applications: Commercial & residential in & out doors, including foyers, boutiques, galleries, living areas, balconies, patios, kitchens, bathrooms, walls and step treads also available. 20mm thickness suitable for use on polypad raised systems and driveways when glue bonded.
