

Lifestone

General: Lifestone has the subtle shading of honed concrete, while possessing all the technical characteristics of hard wearing porcelain stoneware. To compliment this indoor and outdoor range, some modern takes on mosaic have been created.

Applications: Commercial & residential in and out doors, including foyers, shopping centres, public areas, courtyards, living areas, patios, walls inside & out, building facades, step treads and pool surrounds, (with lamination and various edge detail finishes being achieved)
